Overall Length:

5.750 inches

Overall Width:

1.000 inches

Lamination Quantity:

8

Lamination Thickness:

0.002 inches

Features Provided:

Separable

Construction:

Laminated

Special Features:

3 0.375 w by 0.562 in. D rounded slots, first slot 0.500 in. From end, second 1.250 in. And third 5.250 in. From end

Material:

Steel comp 302

Material Specification:

Aisi assn standard single material response

Surface Treatment:

Passivate

Style Designator:

Rectangular

Fsc Application Data:

Periscope, submarine

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
