Inside Diameter:

Between 1.530 inches and 1.540 inches

Outside Diameter:

Between 1.632 inches and 1.634 inches

Overall Thickness:

Between 0.394 inches and 0.404 inches

Surface Finish:

125.0 microinches largest outside diameter

Material:

Aluminum alloy 2024

Material Specification:

Ww-t-700/3, t3 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
