**Inside Diameter:**

Between 0.560 inches and 0.565 inches

**Outside Diameter:**

Between 0.735 inches and 0.740 inches

**Overall Thickness:**

Between 0.020 inches and 0.022 inches

**Special Features:**

A. Heat treated 560 degrees to 600 deg

**Material:**

Plastic polytetrafluoroethylene

**Material Specification:**

Ams 3651 assn standard single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A07000
