Inside Diameter:

Between 0.560 inches and 0.565 inches

Outside Diameter:

Between 0.735 inches and 0.740 inches

Overall Thickness:

Between 0.020 inches and 0.022 inches

Special Features:

A. Heat treated 560 degrees to 600 deg

Material:

Plastic polytetrafluoroethylene

Material Specification:

Ams 3651 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
