Inside Diameter:
Between 0.560 inches and 0.565 inches
Outside Diameter:
Between 0.735 inches and 0.740 inches
Overall Thickness:
Between 0.020 inches and 0.022 inches
Special Features:
A. Heat treated 560 degrees to 600 deg
Material:
Plastic polytetrafluoroethylene
Material Specification:
Ams 3651 assn standard single material response
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A07000
