Inside Diameter:

Between 0.8115 inches and 0.8120 inches

Outside Diameter:

Between 0.9365 inches and 0.9370 inches

Overall Thickness:

Between 0.229 inches and 0.234 inches

Surface Finish:

125.0 microinches

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-225/6, t4 federal specification single material response

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
