Inside Diameter:

Between 0.425 inches and 0.435 inches

Outside Diameter:

Between 0.485 inches and 0.498 inches

Overall Thickness:

Between 0.025 inches and 0.027 inches

Surface Finish:

63.0 microinches

Material:

Aluminum alloy 2024

Material Specification:

Aluminum assn, t4 assn standard all material responses

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
