Overall Length:

1.600 inches

Overall Width:

1.500 inches

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11, t6 federal specification single material response

Surface Treatment:

Anodize

Style Designator:

Rectangular

Fsc Application Data:

Spinner assembly propeller aircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
