Inside Diameter:

Between 5.010 inches and 5.012 inches

Outside Diameter:

Between 5.153 inches and 5.155 inches

Overall Thickness:

Between 0.220 inches and 0.230 inches

Surface Finish:

32.0 microinches

Special Features:

Split opening, 0.090 in. Wide, one side only

Material:

Copper alloy

Material Specification:

Bronze-bearing, grade b8 mfr ref single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
