Inside Diameter:

0.950 inches

Outside Diameter:

Between 1.114 inches and 1.124 inches

Overall Thickness:

Between 0.057 inches and 0.067 inches

Features Provided:

Casehardened

Hardness Rating:

Between 55.0 rockwell c and 60.0 rockwell c

Special Features:

A. Magnetic particle inspection

Fsc Application Data:

1, drive, constant speed, hydraulic, aircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
