Inside Diameter:

Between 5.0000 inches and 5.0007 inches

Outside Diameter:

Between 5.748 inches and 5.752 inches

Overall Thickness:

0.700 inches

Hardness Rating:

Between 30.0 rockwell c and 38.0 rockwell c

Surface Finish:

16.0 microinches left side

Special Features:

Left id counterbored to 5.140 in.Dia by 0.147 in. Deep w/one groove 0.084 in. W by 5.245 in. Diameter located 0.063 in. From left end and one central internal groove 0.190 in. W by 5.237 in.Dia, two holes 0.062 in. Diameter drilled 0.300 in. Deep 180 degrees apart on od 0.167 from left end at 13 degrees angle

Material:

Steel comp 416se

Material Specification:

Ams 5610 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
