Inside Diameter:

Between 0.785 inches and 0.795 inches

Outside Diameter:

Between 0.870 inches and 0.880 inches

Overall Thickness:

Between 0.020 inches and 0.025 inches

Surface Finish:

125.0 microinches

Material:

Steel comp 321

Material Specification:

Ams 5510 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
