Inside Diameter:

Between 1.680 inches and 1.685 inches

Outside Diameter:

Between 1.927 inches and 1.937 inches

Overall Thickness:

Between 0.370 inches and 0.375 inches

Special Features:

2 holes, 0.190-32, perpendicular to the length located 180 degrees apart

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-225/6, t4 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type 1 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000

Mil-std (military Standard):

Mil-a-8625 spec.
