Inside Diameter:

Between 0.640 inches and 0.642 inches

Outside Diameter:

Between 0.746 inches and 0.748 inches

Overall Thickness:

Between 0.057 inches and 0.061 inches

Surface Finish:

64.0 microinches left side

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-225/6, t4 federal specification single material response

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
