Inside Diameter:

Between 1.440 inches and 1.448 inches

Outside Diameter:

Between 1.730 inches and 1.740 inches

Overall Thickness:

Between 0.340 inches and 0.370 inches

Surface Finish:

125.0 microinches

Material:

Magnesium alloy

Material Specification:

Ams 4445, comp hk31a, cond t6 assn standard single material response

Fsc Application Data:

1. Gearbox, transmission, engine aircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
