Inside Diameter:

Between 14.991 inches and 14.993 inches

Outside Diameter:

Between 15.281 inches and 15.301 inches

Overall Thickness:

Between 0.320 inches and 0.325 inches

Surface Finish:

63.0 microinches bore

Material:

Steel comp 630

Material Specification:

Ams 5643 assn standard single material response

Surface Treatment:

Passivate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
