Inside Diameter:

Between 10.230 inches and 10.240 inches

Outside Diameter:

Between 10.435 inches and 10.439 inches

Overall Thickness:

Between 0.097 inches and 0.105 inches

Surface Finish:

125.0 microinches

Special Features:

Inner flange 9.940 in. Diameter w/outside extension 0.280 in. Wide by 10.120 in. Min, 10.125 in. Maximum od, one central internal groove 0.190 in. Wide

Surface Treatment:

Cadmium and chromate

Surface Treatment Specification:

Qq-p-416, type 2, class 2 federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
