Inside Diameter:

Between 0.739 inches and 0.741 inches

Outside Diameter:

Between 0.992 inches and 0.994 inches

Overall Thickness:

Between 0.059 inches and 0.061 inches

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-225/6 federal specification single material response

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
