Inside Diameter:

Between 1.500 inches and 1.520 inches

Outside Diameter:

Between 1.880 inches and 1.900 inches

Overall Thickness:

Between 0.028 inches and 0.036 inches

Material:

Stainless steel

Material Specification:

Ams 4544 assn standard single material response

Surface Treatment:

Passivate

Fsc Application Data:

1. Jet engine, aircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
