Inside Diameter:

Between 0.720 inches and 0.730 inches

Outside Diameter:

0.862 inches

Overall Thickness:

Between 0.027 inches and 0.032 inches

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-225/6, t6 federal specification single material response

Surface Treatment:

Anodize

Fsc Application Data:

1. Rotary wing head, helicopter

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
