Special Features:

Not casehardened; surface finish and location: bore right side, 63.0 microinches; shape: round

Material:

Stainless steel

Material Specification:

Qq-s-763, class 304, condition acf federal specification single material response

Surface Treatment:

Passivate and oxide

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
