Inside Diameter:

Between 1.427 inches and 1.437 inches

Outside Diameter:

Between 1.495 inches and 1.505 inches

Overall Thickness:

0.250 inches

Surface Finish:

125.0 microinches

Special Features:

0.125 radius all inside corners

Material:

Steel comp 304

Material Specification:

Qq-s-763 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
