Inside Diameter:

Between 2.990 inches and 3.010 inches

Outside Diameter:

Between 3.200 inches and 3.209 inches

Overall Thickness:

Between 0.025 inches and 0.027 inches

Surface Finish:

63.0 microinches

Material:

Steel comp 321

Material Specification:

Ams 5510 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
