Inside Diameter:

Between 2.540 inches and 2.550 inches

Outside Diameter:

Between 2.740 inches and 2.750 inches

Overall Thickness:

0.0005 inches

End Application:

Nha p/n sm-d-771212

Product Name:

Manufacturers suggested name - shim, barrel, tube

Material:

Plastic cellulose acetate

Material Specification:

L-p-504c, type 11 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
