Inside Diameter:

Between 0.453 inches and 0.458 inches

Outside Diameter:

Between 0.620 inches and 0.630 inches

Overall Thickness:

Between 0.028 inches and 0.032 inches

Surface Finish:

125.0 microinches

Material:

Steel comp 321

Material Specification:

Ams 5510 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
