Overall Length:

4.000 inches

Overall Width:

2.380 inches

Outside Corner Radius:

0.120 inches

Lamination Quantity:

65

Lamination Thickness:

0.002 inches

Features Provided:

Nonseparable

Construction:

Laminated

Special Features:

Four bolt holes, 0.437 inch diameter, 0.500 inch from center of each hole to edge along width and length

Material:

Copper alloy

Style Designator:

Non-circular w/bolt holes

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
