Overall Length:

1.000 inches

Overall Width:

0.410 inches

Lamination Quantity:

5

Lamination Thickness:

0.002 inches

Features Provided:

Separable

Construction:

Laminated

Special Features:

Item has an open end slot 0.200 inches wide located centrally, 2 bolt holes with 0.151 inch diameter located 0.140 inches from either end

Material:

Copper alloy 260

Material Specification:

Ams 4508 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
