Inside Diameter:

Between 0.254 inches and 0.257 inches

Outside Diameter:

Between 0.326 inches and 0.328 inches

Overall Thickness:

Between 0.030 inches and 0.035 inches

Surface Finish:

63.0 microinches

Material:

Copper alloy 360

Material Specification:

Qq-b-626, alloy 360, 1/2h federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A07000
