Inside Diameter:

Between 3.215 inches and 3.225 inches

Outside Diameter:

Between 3.338 inches and 3.348 inches

Overall Thickness:

Between 0.019 inches and 0.021 inches

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-225/11, t6 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type 2, class 2 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000

Mil-std (military Standard):

Mil-a-8625 spec.
