Inside Diameter:

Between 2.255 inches and 2.260 inches

Outside Diameter:

Between 2.806 inches and 2.808 inches

Overall Thickness:

Between 0.048 inches and 0.050 inches

Surface Finish:

63.0 microinches

Material:

Steel comp 321

Material Specification:

Ams 5645 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
