**Inside Diameter:**

Between 1.002 inches and 1.007 inches

**Outside Diameter:**

Between 1.095 inches and 1.105 inches

**Overall Thickness:**

0.062 inches

**Criticality Code Justification:**

Feat

**Special Features:**

Cross sectional side tapered to an angle of 0 degrees 30 minutes also outside edge has a medium straight knurl

**Material:**

Steel

**Material Specification:**

Astm a582, cond a assn standard single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A07000
