Inside Diameter:	
Between 1.002 inches and 1.007 inches	
Outside Diameter:	
Between 1.095 inches and 1.105 inches	
Overall Thickness:	
0.062 inches	
Criticality Code Justification:	
Feat	
Special Features:	
Cross sectional side tapered to an angle of 0 degrees 30 minutes also out	tside edge has a medium straight knurl
Material:	
Steel	
Material Specification:	
Astm a582, cond a assn standard single material response	
Shelf Life:	
N/a	
Unit Of Measure:	
Demilitarization:	
No	
Fiig:
