Inside Diameter:

Between 1.680 inches and 1.700 inches

Outside Diameter:

Between 1.820 inches and 1.840 inches

Overall Thickness:

Between 0.298 inches and 0.302 inches

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-225/9, t6 federal specification single material response or qq-a-200/11, t6 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type 2, class 2 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000

Mil-std (military Standard):

Mil-a-8625 spec.
