Inside Diameter:

Between 1.875 inches and 1.877 inches

Outside Diameter:

2.386 inches

Overall Thickness:

Between 0.186 inches and 0.190 inches

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-225/9, t73 federal specification single material response or qq-a-200/11, t73510 or t73511 federal specification single material response

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A07000
