**Inside Diameter:**

Between 9.735 inches and 9.755 inches

**Outside Diameter:**

Between 11.740 inches and 11.760 inches

**Overall Thickness:**

Between 0.730 inches and 0.770 inches

**Special Features:**

One hole 0.125 in. Diameter 0.125 in. From inside edge, four 0.031 in. W grooves on one bearing surface

**Material:**

Steel

**Material Specification:**

Astm a515, grade 70 assn standard single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A07000
