Inside Diameter:

Between 0.6250 inches and 0.6265 inches

Outside Diameter:

Between 0.8140 inches and 0.8150 inches

Overall Thickness:

Between 1.830 inches and 1.850 inches

Criticality Code Justification:

Aarx and abhe

Material:

Steel comp xm-12

Material Specification:

Ams 5659 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
