Thread Direction:

Right-hand

Countersink Angle In Deg:

45.0

Slot Depth:

3.000 millimeters

Slot Width:

5.000 millimeters

Overall Length:

15.000 millimeters

Wrenching Facility Shape:

Slotted

Countersink Depth:

2.000 millimeters

Screw Thread Length:

15.000 millimeters

Countersink Location:

Threaded end

Hole Inside Diameter:

17.500 millimeters

Features Provided:

Countersunk

Special Features:

thread size: m32x1.5

Material:

Steel

Material Specification:

Astm a276, comp 420 assn standard single material response

Thread Series Designator:

Bsf

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A540s0
