Inside Diameter:

1.560 inches

Outside Diameter:

Between 1.830 inches and 1.835 inches

Overall Thickness:

Between 0.360 inches and 0.362 inches

Special Features:

Outside diameter chamfered 0.080 by 45 degrees

Material:

Plastic polytetrafluoroethylene

Material Specification:

Ams 3651 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
