Inside Diameter:

Between 1.250 inches and 1.255 inches

Outside Diameter:

Between 1.500 inches and 1.501 inches

Overall Thickness:

0.370 inches

Special Features:

Consumable electrode vacuum arc remelt mandatory

Material:

Steel comp xm-12

Material Specification:

Ams 5659 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
