Inside Diameter:

Between 1.500 inches and 1.505 inches

Outside Diameter:

Between 1.750 inches and 1.751 inches

Overall Thickness:

0.380 inches

Special Features:

Consumable electrode vacuum arc remelt mandatory

Material:

Steel comp xm-12

Material Specification:

Ams 5659 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
