## Inside Diameter:

Between 1.500 inches and 1.505 inches

## Outside Diameter:

Between 1.750 inches and 1.751 inches

# **Overall Thickness:**

0.380 inches

# **Special Features:**

Consumable electrode vacuum arc remelt mandatory

## Material:

Steel comp xm-12

# Material Specification:

Ams 5659 assn standard single material response

Shelf Life:

N/a

### Unit Of Measure:

--

## Demilitarization:

No

## Fiig:

A07000
