Countersink Angle In Deg:

45.0

Wrenching Facility Shape:

Slotted

Countersink Depth:

0.031 inches

Countersink Location:

Wrenching end and threaded end

Hole Inside Diameter:

Between 1.250 inches and 1.252 inches

Features Provided:

Countersunk

Material:

Copper alloy 903

Material Specification:

Qq-c-390, alloy 903 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A540s0
