Inside Diameter:

Between 6.998 inches and 7.003 inches

Outside Diameter:

7.186 inches

Overall Thickness:

Between 0.187 inches and 0.188 inches

Surface Finish:

63.0 microinches

Special Features:

Two drilled holes 0.031 in.Min and 0.034 in.Max 15 degrees apart on outer periphery

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-225/11, t6 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
