Inside Diameter:

Between 6.998 inches and 7.003 inches

Outside Diameter:

7.250 inches

Overall Thickness:

Between 0.187 inches and 0.188 inches

Special Features:

6 pads 0.250 in. Equally spaced 60.0 degrees apart on both size; 2 holes 0.150 in. Min and 0.154 in. Maximum through thickness

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-225/11, t6 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type 1 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000

Mil-std (military Standard):

Mil-a-8625 spec.
