Inside Diameter:

Between 3.872 inches and 3.885 inches

Outside Diameter:

Between 4.118 inches and 4.128 inches

Overall Thickness:

Between 0.134 inches and 0.144 inches

Special Features:

Material to be molded

Material:

Plastic polytetrafluoroethylene

Material Specification:

Ams 3651 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
