Inside Diameter:

Between 0.876 inches and 0.877 inches

Outside Diameter:

Between 1.1240 inches and 1.1245 inches

Overall Thickness:

Between 0.270 inches and 0.273 inches

Surface Finish:

32.0 microinches largest outside diameter

Material:

Copper alloy 630

Material Specification:

Ams 4640 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
