Inside Diameter:

Between 0.517 inches and 0.567 inches

Outside Diameter:

Between 0.610 inches and 0.640 inches

Overall Thickness:

Between 0.151 inches and 0.161 inches

Special Features:

Color gray or blue

Surface Treatment:

Anodize or chromate

Surface Treatment Specification:

Mil-a-8625, type military specification 1st treatment response or mil-c-5541 military specification 2nd treatment response

Specification Data:

99193-s8168 manufacturers standard

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000

Mil-std (military Standard):

Mil-a-8625 spec.
