Thread Direction:

Right-hand

Countersink Angle In Deg:

90.0

Overall Length:

5.000 inches

Diameter:

3.500 inches

Wrenching Facility Shape:

Face spanner

Countersink Depth:

0.062 inches

Screw Thread Length:

0.625 inches

Countersink Location:

Threaded end and wrenching end

Hole Inside Diameter:

2.031 inches

Features Provided:

Countersunk

Thread Size:

2.750 inches

Special Features:

2 internal flanges at each end, 2.001 in. Dia

Material:

Copper alloy

Material Specification:

B8, beryllium copper mfr ref single material response

Thread Series Designator:

Uns

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A540s0
