Thread Direction:

Right-hand

Countersink Angle In Deg:

50.0

Overall Length:

1.438 inches

Wrenching Facility Shape:

Flat

Countersink Depth:

Between 0.030 inches and 0.045 inches

Screw Thread Length:

Between 0.762 inches and 0.765 inches

Width Across Flats:

1.375 inches

Countersink Location:

Wrenching end

Hole Inside Diameter:

1.156 inches

Features Provided:

Countersunk

Thready Qty Per Inch (tpi):

18

Thread Size:

1.375 inches

Special Features:

Flange 1.562 in. Diameter by 0.315 in. Lg placed 0.219 in. From wrenching end; csink angle, 32.0 microinch finish

Material:

Stainless steel

Thread Series Designator:

Unef

Fsc Application Data:

FLUS-HI-NGC-ART4

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A540s0
