**Inside Diameter:**

Between 1.794 inches and 1.796 inches

**Outside Diameter:**

Between 1.912 inches and 1.914 inches

**Overall Thickness:**

Between 0.01715 inches and 0.01725 inches

**Criticality Code Justification:**

Adum

**Surface Finish:**

32.0 microinches right side

**Special Features:**

Chamfered 4 places 0.004-0.007 by 43.0-47.0 deg

**Material:**

Steel

**Material Specification:**

Astm a582, cond a assn standard single material response

**Fsc Application Data:**

Third generation gyro

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A07000
